Notes to editor:

In October 2010 NHS Leicester City and NHS Leicestershire County and Rutland joined forces to form a 'cluster', in line with the requirements of the Department of Health. Although we share one Cluster Board and our staff work across the city and county boundaries, we have not legally merged, and retain our separate statutory duties. Together we serve a population of around 1.5m. Cluster formation is an interim stage in the reform of the NHS, involving ongoing transfer of most local commissioning functions to GP-led clinical commissioning groups, in line with the Health and Social Care Bill, now before Parliament.
